IMPORTANT INFORMATION

At Montecasino we view ourselves as much more than just an events venue. Because of the enormous value of the Montecasino brand, as well as the requirement to manage reputational risk due to the perception that all events are owned and managed by Montecasino, we apply a partnership philosophy to all events, concerts, festivals etc.

For this reason, please note that the following in-house departments will need to be engaged:

- **PROPERTY MANAGEMENT** who deals with logistics, including technical as well as Food & Beverage requirements and will assist and advise you on all legal requirements relating to eventing.
- **SECURITY** who look after safety and crowd control during your event, as this is of paramount importance to us.
- **MARKETING TEAM** consisting of Public Relations, Advertising, Multi-media, Relationship Marketing and Tenant divisions, who will endeavour, once approved, to ensure that your event is a success!

You will be assigned an Event Producer to facilitate approvals and other required processes.

Montecasino is a unique entertainment offering and we take pride in offering you the latest and most valuable advice, based on our vast experience.
